

PRICES SLASHED ON SMSTS COURSE

In a one off special offer UTN have slashed over £100 off the CITB SMSTS course for the next two months

The Site Management Safety Training Scheme (SMSTS) is one of the most highly regarded construction courses available for site managers and supervisors, and is taken by more than 10,000 people each year.

It helps site managers (and anyone wanting to become a site manager) to develop a better understanding of the legal, moral and social responsibilities of their role, and to manage health and safety on site in accordance with current legal provisions.

The course lasts five days and can be taken on a day or block release basis. It helps managers and supervisors to manage health and safety on site in accordance with current legal provisions, and within the context of their management and supervisory role.

For the next two courses - day release over five weeks in September and one five day block in August - we are offering places at £495.00 + VAT instead of our usual price of £598.50 + VAT. Price includes lunches, all books and certification.

Places will be allocated on a first come first served basis. See our scheduled course list on the reverse of this newsletter for dates.

Win a free place on the August 15 - 19 SMSTS course.

Simply send an email to Dave@utntraining.co.uk with your name, company, and the answer to this question:- What do the initials SMSTS stand for?

A free place will go to the first correct answer to be drawn on July 29.

SUCCESSFUL UTN OPEN DAY

Last month saw another successful and well attended Open Day here at UTN in Wakefield.

Companies from all over the north were represented and saw demonstrations of the various courses we run and were able to update themselves on the latest legislative requirements.

Centre Manager Dave Roberts commented: "It is always good to see customers old and new and I think everyone took something away from the day. Our thanks to the HSE who provided packs of health and safety information to everyone".

HSE BID TO CUT BACK INJURY

In a bid to cut the number of days lost through back injury the HSE have launched a Better Backs Campaign

Almost 5 million working days are lost due to back pain every year according to HSE statistics.

"The bad news is that back pain doesn't just hurt your back. It can also hurt your finances and your lifestyle" says campaign literature.

"The good news is that it's not a hard problem to tackle", it adds.

Most back injuries at work involve manual handling operations and can be avoided if employees receive proper training and use lifting aids wherever possible.

Further information can be obtained from HSE on 08453450055 or on their website at www.hse.gov.uk.

Manual Handling courses are available at UTN. For information call 01924 377379.

UTN WEB SITE IS A BIG HIT

Our web site continues to grow from strength to strength and receives an ever increasing number of hits.

Designed by Leeds design company Cool Pink it has proved an excellent tool for both clients and ourselves.

If you have received good service in your dealings with us and would like to be associated with UTN why not drop us a short testimonial and we will load it on to our website.
